JULY – SEPTEMBER 2025

6G Vertical Trials for Sustainability

Communication & Dissemination Activities

6G-VERSUS at Coimbra Summit Event

On July 2nd and 3rd, Coimbra Summit event was held in Portugal and brought together 1,900 participants and 102 exhibitors.

During the [IneoStart Demoday](#), co-organised by Instituto Pedro Nunes partner, eight promising teams pitched their ventures following an intensive acceleration programme. The session opened with a presentation by Jorge Pimenta, Innovation Director at IPN, who introduced the 6G-VERSUS project, the concept and the pilot sites.

More info on the event: <https://coimbrainvestsummit.pt/>

6G-VERSUS at AIOTI Days

Our Project Coordinator, Sanna Tuomela, represented the project at AIOTI Days 2025 (22–23 September, Madrid).

During the session “*Projects Applying Vertical Use Cases with 5G/6G*”, Sanna introduced our reference architecture, highlighting how it facilitates seamless interaction between applications, networks, IoT devices, and the edge.

Key insight: Sustainability emerged as a unifying principle across all projects in the 5G/6G landscape. We reaffirm our commitment to collaboration and knowledge exchange to advance sustainable and high-impact solutions.

A memorable moment was the group photo featuring the strong presence of women innovators at AIOTI Days 2025, a powerful reminder of the crucial role women play in shaping the future of IoT, AI, telecom, and beyond.

6G-VERSUS Greek Pilot Meeting in Athens

On July 14th, the partners of the 6G-VERSUS Greek Pilot held a productive on-site meeting at NCSR “DEMOKRITOS”, where they discussed all key deployment parameters and conducted a site inspection.

Part of the hardware to be deployed includes a robotic dog and a UAV equipped with a camera and integrated GPU, highlighting the project’s advanced capabilities in real-time data collection and edge processing.

Partners involved:

[I-SENSEGroup/ICCS](#), [HRTA Hellenic Rescue Team of Attica](#), [OTE Group of Companies \(HTO\)](#), [INFOLYSiS](#), [FRONT Research Group | NCSR “DEMOKRITOS”](#)

6G-VERSUS 3rd Plenary Meeting

The 6G-VERSUS 3rd Plenary Meeting took place on 17th–18th September 2025 in Aveiro, Portugal, hosted by [Instituto de Telecomunicações](#). All WPs and Tasks were presented thoroughly, updating the consortium and leading to fruitful discussions and constructive exchanges among partners.

The meeting provided an excellent opportunity to review project progress, align upcoming milestones, and discuss key technical developments in 6G research and innovation.

Additionally, at the end of the first day, Advisory Board members also joined, and we would like to thank them for their valuable consulting.

Upcoming Events

11th International Conference on Civil Protection & New Technologies

On the 22nd-24th of October, 6G-VERSUS will be present at the 11th International Conference on Civil Protection & New Technologies, at Heraklion, Crete. Hellenic Rescue Team of Attica (HRTA) and Institute of Communication and Computer systems (ICCS) partner will represent the project at the conference.

For more information about the event [here](#).

IEEE NFV-SDN 2025

In the context of the IEEE Conference on Network Function Virtualization and Software Defined Networks (IEEE NFV-SDN 2025), which takes place on 10th –12th November 2025 in Athens, Greece, the 6G-VERSUS project, in collaboration with nine other EU-funded projects, is co-organising Workshop 3: 2nd Edition of ATHENA WORKSHOP ‘Empowering 6G Networks: 2nd Workshop on Advancements in Research Infrastructures, Adaptive Frameworks, and Global Architectural Evolution (ATHENA 2025)’

Period and Upcoming Deliverables

- D2.1** – Platform architecture and use case requirements- October 2025 – Public
D5.1 - 6G Trials Plan and Validation/Evaluation Framework – October 2025 - Public
D3.1 – 6G-VERSUS experimentation environment – Initial – December 2025 – Public

6G-VERSUS 241 followers

#Learnabout6GVERSUS Today, our project coordinator, **Sanna Tuomela** from **University of Oulu**, will introduce 6G-VERSUS at the **Call 3 SNS JU Project Introduction Webinars**. The presentation will be part of **Session 2 - Stream 1**

6G SNS CALL 3 SNS JU PROJECTS INTRODUCTION WEBINARS

1 FRIDAY 14 FEBRUARY 2025 10:00 to 12:30 CET

Projects presented will be from:
 Stream B1 (System Architectures),
 Stream B2 (Wireless Communication Technologies and Signal Processing),
 Stream B3 (Communication Infrastructure Technologies and Devices) and
 Stream B4 (Reliable Services and Smart Security).

2 MONDAY 17 FEBRUARY 2025 14:00 to 16:00 CET

Projects presented will be from:
 Stream B5 (International Collaboration - EU Japan),
 Stream B6 (International Collaboration - EU - Republic of Korea),
 Stream B7 (Sustainability Lighthouse),
 Stream B8 (Reliable AI for 6G), C (SNS Microelectronics Lighthouse) and
 Stream D (SNS Large Scale Trials and Pilots with Verticals).
