

# 6G-VERSUS

## 6G Vertical Trials for Sustainability

**6GSNS**  
smart-networks.europa.eu

 Co-funded by  
the European Union

Duration: 36 months 1.1.2025 – 31.12.2027  
Call: HORIZON-JU-SNS-2024-STREAM-D-01-01 - SNS Large Scale Trials and Pilots (LST&Ps) with Verticals  
Type of action: HORIZON-JU-IA HORIZON JU Innovation Actions

6G-VERSUS has received funding from the Smart Networks and Services Joint Undertaking (SNS JU) under the European Union's Horizon Europe research and innovation programme under Grant Agreement No 101192633

Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or SNS JU. Neither the European Union nor the granting authority can be held responsible for them.

# PRESS RELEASE

25 February 2026

## 6G-VERSUS Project returns to Mobile World Congress 2026

The 6G-VERSUS project returns to **Mobile World Congress 2026** for the second consecutive year, bringing fresh communication material, new videos, and news on the progress of the project.

Visitors can meet the project team at the **OneSource partner Booth at hall 6, stand 6G24**.

At the booth, attendees will discover the latest cluster activities and our progress toward the large-scale trials and pilots of 6G-VERSUS. They will also learn about the 6G-VERSUS Sustainability Framework and get a preview of the upcoming 6G-VERSUS Venture Accelerator Program, designed to support market-oriented innovation and foster the next generation of 6G-driven ventures.

The stand will also feature **a live demo**, showcasing the **6G-VERSUS architecture**, and how it's being implemented to validate future 6G network concepts, including dynamic and seamless network exposure and distributed AI processing. The demo is supported by the Mobitrust platform, as part of the Portuguese pilot, and its use case towards cleaner and safer maritime port operations.

Participants will have the opportunity to meet the Project Coordinator, **Dr. Sanna Tuomela**, from the **University of Oulu**, who will provide the latest insights on the project's progress and upcoming milestones.

In addition, 6G-VERSUS will have an extended presence in MWC, being also present at the **Keysight Technologies booth Hall 5 stand 5F41**, where visitors can access the project's new communication materials and engage with its latest developments.

6G-VERSUS invites stakeholders, industry representatives, researchers, and innovators to connect at MWC 2026 and discover how the project is advancing a sustainable, innovation-driven 6G future.
